

Elavon Residences Web Challenge

Estimated time up to 4 or 5 hours.

Instructions

Create a Homepage for “Elavon Residences” websites.

Constraints:

1. Frontend - HTML5, JavaScript, CSS, Bootstrap 4 Framework(optional)
2. Backend - WordPress (4.9+), Laravel (5.5+), or you own PHP(7.1+) logic

Requirements

1. Home page must contain a Contact Form for inquiries.
2. The Contact Form submissions need to be stored in the database.
3. HTML code must include SEO meta tags

Contact Form model

- First name
- Last name
- E-mail
- Phone
- Subject
- Message

Evalon Residences web content

Use the page content provided to construct the homepage.

Deliverables

Email a zip file and include:

- Include a static HTML file version saved from the browser
- If you are using Wordpress
 - include your theme's folder (source code)
- If you're using Laravel, include in a zip file:
 - include all files except (node_modules or vendor files)
- If you are using your own PHP & SQL logic for the backend,
 - include all the PHP files.
- Also, you can provide a link to a repo of the project (like GitHub or BitBucket) for download
